SUPRANATIONAL HOTELS

Supranational Hotels maintains a portfolio of hundreds of hotels in key business destinations around the world. Our in-house team of dedicated sales professionals can furnish you with a wealth of information and insight into our hotels. We understand the needs of the travel buyer and deploy expert management to accelerate and smooth the processes of connecting buyers to hotels.

LOOKING FORWARDS

As the preparations and anticipation begins to rise for the Rio Summer Olympics later in the year some already have one eye on the 2020 games in Tokyo and in particular, the technological advancements it will bring.

While robots are already beginning to appear in some hotels, the Tokyo games will have an entire village for its robotic staff. Showing some confidence that in the next four years there will be sufficient development to ensure a working robot fleet; automations will start to appear in the service industries.

Realistically then, how long will it be before robotic staff, algae fuelled planes and self driving cars start to really impact upon the movement of the corporate traveller and what hotels will be providing?
